CONSERVATIVES AHEAD!

The Returns From the Canadian Elections Indicate a Disastrous Defeat of the Liberals.

HALIFAX, N. S., March 6.—The maratime provinces have saved the Ottawa government. What ever Ontario may want, the eastern part of Canada has unmistakably spoken against the unrestricted reciprocity scheme of the liberals. Its savor of annexation has frightened the people of these provinces. Of all the surprises of the day the maratime provinces have furnished the greatest. Prince Edward Island, which in the last parliament had a solid liberal phalanx of six, now send two conservatives to four liberals. Nova Scotia, which sent a conservative majority of nine to the last parliament, sixteen members out of twenty-one, will now support Sir John McDonald's administration. The conservatives have carried this city by 900 majority. Kings is the western county of Prince Edward Island and returns Messrs. McDonald and McLean to support Sir John. The excitement was intense here as returns came in, when it was found how solidly conservative the maratime provinces had gone.

ST. JOHN, N. B., March 6.—The conservatives have made sweeping gains in New Brunswick. Three St. John liberals were defeated by majorities ranging from 500 to 900. In Kings, the minister of finance was defeated by Colonel Domville on a close vote, but he will get a seat in some some other constituency. Ellis, the avowed annexationist member for St. John City, was beaten. Transparencies of the Queen were displayed from the leading conservative newspaper offices, and crowds thronged the streets singing "Our Own Canadian Home," and the national anthem.

VICTORIA, B. C., March 6.—The returns so far given Prior and Earl (conservatives) a big majority in all the divisions, and it is now certain that Templeman and Merchant, liberals, will lose. There was great excitement in the city during the day, and last night the streets were thronged with anxious people who were eagerly scanning the reports the moment they were received.

TORONTO, Ont., March 6.—Party estimates on the result of yesterday's election show a wide variation. The conservatives claim a majority of forty, while the liberals claim that it will not be much over twenty. The former declare that many members from Quebec who are claimed by the liberals will be found with the government on a division. There is some foundation for this claim because of the fact that a number of Quebec members elected to the last house of commons as nationalists and liberals were drawn over to the side of the government by the attraction of patronage and other advantages that accrue from being associated with the party in power. The same may occur again and in such an event the government claim is not excessive. The most impartial estimate gives the government apparent majority of twenty-five.

DON'T LIKE TIGHTS.

The Minnesota Senate Considers a Bill of a Sensational Character.

ST. PAUL, March 6.—In a committee of the whole yesterday the senate recommended that the following remarkable bill, introduced by Senator Hale, be passed: "That any female person who shall, upon stage or platform in any theater or opera house, concert hall, or any public place whatever, where other persons are present, expose her nether limb or limbs dressed in tights so-called, or in any manner whatever so that the shape and form of her nether limb or limbs are plainly visible to such other persons present, shall be guilty of open and gross lewdness and lascivious behavoir and guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not less than $5 nor more than $100, or imprisonment in the county jail for not less than five days nor more than thirty."

A Prussian Thief Arrested.

MILWAUKEE, March 6.—A year ago Julius Schroeder was a resident of Stetten, Prussia. He lived beyond his means by realizing on promissory notes indorsed by his father. But the exposure came at last, when his father pronounced the indorsements forgeries. There were in all five notes, aggregating 769 marks, and rather than stand the consequences at home young Schroeder fled to America. He was arrested here yesterday.

Senator Ingalls on the War Path.

NEW YORK, March 6.—Senator Ingalls has been stirring up an immense amount of talk here by one of the most bitter and cutting attacks that he has yet made on the navy. The article appears in this week's Truth. All the news stands were sold out before 5 o'clock. A second edition of the papers in press.

A Narrow Escape From Fire.

WEST SUPERIOR, Wis., March 6.—Fire yesterday destroyed the bagnio of Maggie McRea in this city and eleven people barely escaped with their lives. The flames spread with such fierceness that the inmates were forced to jump from the windows to save their lives. They succeeded in getting out however, but five sustained injuries more or less severe. The personal loss amounts to about $12,000. The building was valued at $3,600.

SENSATIONAL ARRESTS.

C. M. Depew and Others Held Responsible for an Accident.

NEW YORK, March 6.—Coroner Levi to day issued warrants for the arrest of the officers and directors of the New York, New Haven and Hartford railroad company, who have been held responsible by the coroner's jury for the death of the tunnel victims. The warrants issued were for the following officials: President Clark and the other officers of the company in New York and Connecticut, and the directors, including Chauncey M. Depew and Wm. Rockefeller. The district attorney turned the warrants over to Inspector Byrnes, who will formally serve them where possible, and bail will doubtless be accepted.

THE MINERS WIN.

An Increased Demand for Coal Capitulates the Operators.

PITTSBURG, Pa., March 6.—The great miners' strike on the Monongahela river is ended. A settlement was effected this morning by the coal operators conceding the demands of their employes, and will hereafter pay 3½ cents per bushel for mining. Six thousand miners will resume work Monday next, after a strike lasting nine weeks, with an estimated loss of $1,000,000 in wages. Pressing demands for coal in the Mississippi river markets compelled the operators to come to the miners' terms.

Two Murders.

EUFAULA, Ala., March 6.—Wednesday night Tom Burnett was called to his doorway and was shot dead with a load of buckshot in his brain. Last Christmas Burnett married a daughter of John Scott. The young woman's parents were opposed to the marriage and her father has often threatened to kill Burnett. No trace can be found of Scott, but his wife was arrested as an accessory before the fact.

MONTGOMERY, Ala., March 6.—M. T. Barginer, living near Greenville, yesterday afternoon shot and killed Wm. Green, a tenant on his farm. A difficulty arose between the two men over the right of way in passing each other on a public road. Green got out of his wagon and started toward Barginer with an axe in his hand. Barginer drew a Winchester rifle and shot Green between the eyes, killing him instantly.

Seeking Aid for the Jews.

WASHINGTON, March 6.—William E. Blackstone, of Chicago, in company with Secretary Blaine, called on President Harrison, and presented a memorial, the result of a conference recently held in Chicago, urging the government to use its influence with the great powers to secure an international conference on the subject of alleviating the conditions of the millions of suffering Israelites in Russia. The president promised to give the matter serious consideration.

Will be Settled.

PITTSBURG, March 6.—The strike of the Monongahela river miners, by which 10,000 miners and laborers have been thrown out of employment since January 1st, is now in a fair way of settlement. A meeting of the operators and shippers has been called for next Monday, and it is stated that they will agree to the men's demand of 8½ cents per bushel.

A Storm of Snow and Sleet.

ST. LOUIS, March 6.—The cold spell of this week last night became converted into a storm of sleet and snow. About five inches of snow fell, which was covered by a crust of frozen sleet. No serious trouble is reported by the telegraph and telephone companies. The signal service predicts local snow to day, which will turn into rain.

Killed His Wife.

PARKERSBURG, W. Va., March 6.—At E. Parker killed his wife in a fit of jealous anger yesterday. The couple were but recently married. He was in a jealous mood when he reached home yesterday and seizing a hatchet, cleaved her skull in two places. He claims his wife attacked him first.

Murder and Suicide.

PORT HURON, Mich., March 6.—Near Emmett last night Daniel McMahon, a farmer, cut the throat of Annie Murphy, a daughter of the woman for whom he had worked. She was found dead in her room. He also cut his own throat, inflicting probably fatal wounds.

Court House Burned.

GAINESVILLE, Tex., March 6.—The court house at Archer City was burned Wednesday night, together with nearly all the county records. The loss is estimated at $60,000. The fire is supposed to be of incendiary origin.

Feather Weights Will Fight.

BOSTON, March 6.—Johnny Griffo, of Brockton, and Ike Weir, of Boston, feather weights, have signed articles for a twenty round contest for a purse of $1,400 to be decided in or near Boston on or about April 12.

Against the World's Fair.

RALEIGH, N. C., March 6.—The legislature yesterday refused to pass a bill appropriating $25,000 for North Carolina's exhibit at the World's fair. The popular condemnation of this action is of the heartiest character.

A HORRIBLE DEED.

A Half-Breed Deliberately Disembowels His Best Friend in the Presence of Bystanders.

SAN DIEGO, Cal., March 6.—Joseph Muir, a half breed, living in San Quinten, on Sunday last made a desperate attempt on the life of Filipe Sanchez. The latter was asleep on the sidewalk in front of a saloon, when Muir, who was partly intoxicated, came along and tried to awaken him. Failing, he opened Sanchez's shirt and drawing a knife, made a motion to disembowel him. He felt the edge of his knife, and evidently thinking it was not sharp enough, stepped into the saloon and deliberately sharpened the weapon. When he thought the edge was keen enough he walked to where Sanchez lay and kneeling down beside him plunged the blade into the sleeping man's abdomen. He then partly withdrew it and and ran it over against the hip bone. Here he turned the weapon and forced it upwards as far as the ribs would allow it to go. Muir then pulled the shirt back over the horrible gash, straightened up, smilingly nodded to the bystanders, licked the blood from the blade on one side and placed it back in the scabbard by his side. He was at once siezed by the bystanders and placed in custody. Sanchez was alive at last accounts. Muir is now in jail in Escondo. Referring to his act, he says he was a good friend of Sanchez, but he wanted to try his new knife.

SWUNG INTO ETERNITY.

A Noted Desperado Meets Death at the Hands of the Law.

BOONEVILLE, Mo., March 6.—John Cesar Turlington, was hanged here at 10 o'clock for the murder of Sheriff Crammer, of Cooper county. His neck was broken.

The crime for which the desperado, John O. Turlington, was hanged to-day was the shooting and killing of Sheriff Crammer, in the jail on the night of June 14th last. A year ago, while going through Missouri, Turlington was ordered from a freight train. While jumping off the car he fired at the brakeman and ran away. He was arrested and lodged in the Booneville jail. On the night of June 14th last as Sheriff Crammer was unlocking his cell, Turlington drew a revolver and shot the sheriff, who died the next day. Turlington escaped from the jail, but was captured the following day a few miles from Booneville. On the trial he was convicted of murder and sentenced to be hanged on September 17th. The case was taken on appeal to the supreme court. On November 1st Turlington escaped from jail, but was captured in November 12th. On January 17th, the last supreme court rendered its decision, sustaining the decision of the trial court and fixing the date of the execution for to-day.

Sheriff Hornebrook, in accord with the request of the prisoner, had forbidden the snow to be broken on a narrow path leading to the scaffold situated in the jail yard. Turlington desiring to tread the path with which providence had adorned the earth. Crowds had gathered early, though only a few were admitted to witness the execution. At 2 o'clock this morning, at Turlington's request, he was awakened, ate breakfast and donned his funeral attire. As the hour of execution approached he voluntarily announced himself ready and at 9:50 the procession moved toward the gallows. No delay was occasioned, Turlington placed himself beneath the noose, and immediately the rope and cap were adjusted, followed closely by a signal which launched Turlington into eternity. At 10:25 the body was cut down, after his life had been pronounced extinct, and will be buried in the county's burial grounds, Turlington's relatives having evinced no desire to gain possession of the body.

Arresting Railroad Officials.

NEW YORK, March 5.—The question of extradition between the states of New York and Connecticut will again be raised by the issuance of warrants for the arrest of the officers and directors of the New York, New Haven and Hartford railway company, in accordance with the verdict of the coroner's jury in the Tunnel accident investigation. The majority of the officials reside in Connecticut, and it may be necessary after the service of warrants, to secure extradition papers from the governor of that state. It is probable that the officers and directors, when arrested, will waive any rights of this nature, but should they decide to demand their free legal privileges, it will be interesting to watch the course of Governor Hill when asked by Connecticut to turn over the prisoners to some court within his jurisdiction. There is a chain of peculiar complication.

The Bishop Bowman Affair.

BERWICK, Pa., March 6.—The Central Pennsylvania conference of the Evangelical association convened here yesterday. An informal meeting of the members of the conference Wednesday night adopted an address to Bishop Bowman, in which they urgently asked him not to attempt to preside. Bishop Bowman declared his purpose to preside if he was not prevented. Bowman marched up to the place of meeting yesterday, but was met at the door by a representative of the trustee, who informed him that he could not enter. Whereupon the bishop turned about and returned to his hotel.

HOME SICKNESS.

Causes a Pretty Polish Girl to Commit Suicide.

PITTSBURG, Pa., March 6.—At 5:30 this morning, a young girl who had been in the ladies waiting room at the Union station the greater part of last night, entered the lavatory. As she did not reappear in a reasonable time, Matron Elizabeth Hempt knocked at the lavatory door, but received no response. Later she knocked again, and again getting no answer called Depot Policeman Zimmerman, who after ineffectual effort to open the door, called the station master and another officer. The door was forced open. The woman was found hanging from the gas jet suspended by a towel around her neck. The body, yet warm, was cut down and carried to the waiting room. Physicians were called but the woman was dead and the body was removed to the city morgue. She is about twenty-three years of age, five feet in height, light complexion, light brown hair and very neatly attired. In her pocket was found a small purse containing two Polish coins. Written on a slip of brown paper was a note in the Polish language, a translation reading: "Please telegraph that I have committed suicide because I did not stay in my native home. (Signed) E. W. A. Block; address, Wrolonowski, No. 12, Utica Woposeni, No. 36, in Warszawa, Rusland." It is not known where she came from, but it is thought that she arrived on the Pacific express yesterday and was looking for some one from New York.

Robert Ray Hamilton Again.

NEW YORK, March 6.—Schuyler Hamilton, jr., the commissioner sent by the surrogate's court to Pan, France, to obtain the deposition of J. O. Green, who found what is supposed to be the body of Robert Ray Hamilton in Snake river last September, has returned to this city. His report has been given under seal to the surrogate. It was rumored, however, that Mr. Green's testimony was of such a character, as to prove disappointing to the Hamilton family and their counsel. The statement, it is said, is strongly corroborative of the generally accepted belief that Hamilton is dead. As to the identification of the body, the important point, Mr. Green says positively that he could not identify it. It was so mutilated that no one could have identified it by the features. Mr. Green's idea of the mystery in connection with the case is that if the body was not that of Hamilton some one must have been clad in Hamilton's clothing and the body placed in the stream.

Committed Suicide.

CHICAGO, March 6—Charles N. Crosswell, about thirty years of age, son of ex-Governor Crosswell, of Michigan, was found dead in his bed yesterday at the Richmond hotel, corner of Van Buren and State streets. On the floor was a paper marked "Morphine," the contents of which he had swallowed. For several years Crosswell has led a roving life.

JACKSON, Miss., March 6.—Governor Stone yesterday received a telegram saying that Tax Collector Cowart, of Marion county, had absconded with the funds of the county. ANOTHER INDUSTRY.

Manager Stickney, a Shoe Manufacturer, Wants to Establish a Plant in Fort Wayne.

Mr. Stickney, a prominent shoe manufacturer of Chicago, is in the city, and with W. L. Carnahan, the wholesale shoe merchant, is looking over the ground with a view to establishing within our gates an industry for the extensive manufacture of shoes. While here he talked with D. N. Foster, G. W. Finley and other gentlemen, and the prospects for the proposed manufactory are encouraging. Local capital will in a measure be invested should the plans mature sufficiently to establish the plant. Mr. Stickney has been engaged in the shoe manufacturing business the greater part of his life, which fact itself is suggestive of success in an enterprise such as the one about to be projected. The new factory would probably employ 200 men. This city is favored as a location by reason of its railroad traffic advantages and for other good features the Summit City affords.

WANT MAIN STREET PAVED.

A Petition Circulated for a Much Needed Street Improvement.

The property-owners along certain portions of West Main street want that thoroughfare paved from Calhoun street to Lindenwood cemetery. A petition circulated by C. E. Orff is numerously signed favoring the street improvement, and, says that gentleman: "I can secure the names of the majority of property-owners for the petition." West Main street has been in a deplorable condition and during certain bad weather it could hardly be traversed. Especially that portion beyond the river bridge is in need of repair, inasmuch as all funerals to Lindenwood have no alternative but to go that road, there being no other accessible route. Funeral processions have been delayed west of the bridge more than once for the very reason that the street was bad, and this fact alone will no doubt argue in favor of the improvement. The matter will be urged upon the common council.

WITHIN SIXTY DAYS.

The District Telegraph System—The Construction Material in Transit.

Solicitors are out in the interest of the new district telegraph messenger service, and, says Mr. Green, "within sixty days the system will be in operation." The material has been ordered and is now in transit. Upon its arrival Mr. Ed Gilmartin will oversee the erection of lines and other details of construction. The company's list will include a great many business houses, besides quite a number of residence subscribers. The verdict seems to be that the new district telegraph service is something Fort Wayne cannot well get along without and that it should have been here long ago.

AMATEUR TALENT.

A Drama to Be Presented on the Standard Club Stage.

Next Monday evening a drama called "The Loan of a Lover," will be presented by amateur local talent at the Standard club auditorium. After the play a reception, dancing and banquet will afford pleasant pastime. The affair will be one of the most enjoyable yet given by this popular Hebrew society.

The cast of characters for the play will be as follows: "Captain Amesport," Geo. W. Heller; "Peter Spyk," Max Pottlitzer; "Swyzel," Emanuel Rosenthal; "Delve," Seymour Hirsh; "Gertrude," Rose Nathan; "Ernestine Rosendals," Hattie Rosenthal. The event is strictly a club affair.

STILL IN SUSPENSE.

Judge Zollars Files a Remonstrance in the Main Street Bridge Matter.

The report of the viewers in relation to vacating the East Main street bridge came up before the county commissioners yesterday afternoon. The report was favorable to the vacation of the structure. Judge Zollars appeared before the board and on behalf of East Main street people, asked for time to file a remonstrance, and a petition for the appointment of reviewers to assess damages and benefits. The matter is thus in suspense.

H. Buck; Treasurer, Anselm Fuelber; Directors, Theodore Hofer, Frederick Roemble, Charles Stockman, Ernest Thoime, Charles Roeger, and Henry Toenges.

COMING ATTRACTIONS.

Carl Gardner To-morrow Night—The Germania Monday.

The brightest of jolly comedians and sweetest of singers, Chas. A. Gardner, in his new play, "Fatherland," comes to the Temple Saturday night. "Fatherland" is described as a beautiful, musical, romantic comedy of home in the Tyrol. It is hard to say which is the best part of the play, as the whole company teems with bright sayings, picturesque scenes, catchy songs and merry choruses.

The new first part, entitled "Lorillard's Reception;" the funny song and dance sketch, "Twilight in Dixie;" the dancer's dream and the burlesque on the gondoliers, entitled "The Gamboliers," are all the work of the Germans. They are to appear here on next Monday evening.

A NEW BILL

To Be Passed on Officers' Fees and Salaries.

Senator Loveland introduced a new fee and salary bill yesterday in the senate at Indianapolis. It provides for the appointment of a non-partisan fee and salary commission of three members, with quarters in the state house. It is made the duty of this commission to inquire into the work required in each of the state and county offices in the state, and prepare a fee and salary bill based on services, and population, and that will stand the constitutional test. The commission, between the 15th of November and the 1st of December, 1892, is to mail two copies of the bill prepaid to each member of the general assembly, and one copy to each newspaper in the state. The pay of the members of the commission is fixed at $5 a day for each day employed.

CONGRESSMAN MARTIN.

Hon. A. N. Martin and Family in the City Briefly.

Among the guests at the Hotel Aldine to-day were Hon. A. N. Martin, wife and daughter. Mr. Martin is congressman from the Eleventh district and stopped in the city briefly, being anxious to return to his home at Bluffton after having closed his arduous duties at Washington. Mr. Martin is a tall, slim man of striking appearance, his iron-gray mustache and hair giving him a distinguished look. He is a pleasant man to chat with, his tone having a cheery ring to it. In conversation with a SENTINEL reporter he said: "I am glad indeed that there is no special session of congress. I don't think there was any need of an extra session although there is considerable business left over." Mr. Martin was in a great hurry to catch the afternoon train and was thus saved from further reportorial onslaughts.

Hanged.

WILMINGTON, Del., March 6.—Shakespeare Reeves was hanged at New Castle at 10:36 o'clock this morning.

The crime for which Reeves was executed was for felonious assault committed upon Grace Clark, a white girl of eleven years, near New Castle, on Sunday, Sept. 28. Reeves, who was employed by the father of the girl, decoyed his victim into the barn and maltreated her so that for several days her condition was critical. When Reeves was captured the father of the girl attempted to shoot him, but was restrained, and the negro taken into custody. He was tried at the November term, found guilty, and sentenced to death.

A Strike May Occur.

CLEVELAND, March 6.—A Springfield, Ohio, special states that the employes of the Sandusky and Whitewater branches of the Big Four railroad system will not be granted an increase of wages. Representative workmen met the officials of the company yesterday, and laid their grievances before President Ingalls, who said that on account of the few trains run on the Sandusky and White Water branches the employes thereof ought to be satisfied with 25 per cent less than "Big Four" wages. It is possible that a strike will follow.

This Marriage Was a Failure.

TERRE HAUTE, March 6.—John W. Buckallew, a young married man, took belladonna with suicidal intent. Buckallew quarreled with his bride of a month because she was admiring a photograph of a former admirer. She left and returned to her home at Atwood, saying she married him only because her grand parents wished her to do so.

The man Hellmer, who was arrested a few days ago for obtaining money on the pretense of collecting for a church, has a rather interesting record. His proper name is Max Gebricki. About six years ago he went to Chicago from Joliet, Ill., and entered the seminary of R. J. Swearingham to study theology. He boarded with a family named Jacobs. Gebricki was expelled from the seminary because he would not behave himself. He became on very intimate terms with Jacobs' wife, and found that she had some money in her own name. He induced her to run away from home with him, and the couple left Chicago and went to Cincinnati, Mrs. Jacobs leaving six children at home, the youngest being not quite a year old. The couple was not married, but lived in Cincinnati for awhile from whence they went to Detroit. After living in the latter town a short time, Gebricki and his mistress went to Fostoria, Ohio, where Mrs. Jacobs is now living, at the Philadelphia house, under the name of Mrs. Hellmer. It is presumed that Gebricki run out of funds while at Fostoria, and started out on the road to work the church fund racket.

This is the last week of the Indiana legislature.

The snow storm to-day is reported to be general throughout the country.

The police officers deserve credit for running down the burglar gangs in this city.

March came in like a lion and continues lion-like. It will go out like a lamb.

CONGRESSMAN MARTIN, an interview with whom appears in to-day's SENTINEL, is one of the brightest of Indiana's congressmen.

At the meeting of the Business Men's exchange next Monday night, the subject of free gravel roads will be still further discussed and action taken concerning the formation of the Commercial club.

The term of Dr. Shaffer, of Huntington, as trustee of the school for feeble minded, is about expired. He is a candidate for re-appointment. Colonel Briant, of Huntington, is also an applicant for the position.

EX STATE TREASURER LEMCKE has intimated to some of his Indianapolis friends that he will accept the treasurership of the United States offered him by President Harrison. His answer will be given to President Harrison this week, and will be in the affirmative.

Does farming pay? That depends on what kind of a farm you have and where it is. Four hundred acres is the extent of a California fruit farm, which, in 1890, produced fruit worth $159,000. The expenses of labor, packing and boxes amounted to a little less than $59,000, leaving over $100,000 as the profits of the farm for a year.

A BULLETIN on the subject of racial increase in population of the country during the past decade will soon be issued from the census bureau. It will show that the percentage of increase during the past ten years of the white race has been twenty-four per cent., while that of the colored race has been thirteen per cent.

TOUCHING monuments, General Sherman said: "It is enough to make General Grant turn in his grave to have all this talk and begging going on for a monument over his body. I know all Grant would ever wished would have been a plain marble slab, something to mark his last resting place, and no more. I hope when I am gone no one will talk about a monument over me. A good piece of white marble is enough for any soldier or anybody."

THE senate bill regarding the land of the Miami Indians of Allen county has passed the house, and now awaits the signature of the governor. The law will free from taxation the large tract of land near this city, known as the Richardville reserve, and owned by the Godfrey family, the descendants of the Miami tribe. This piece of land has been placed on the tax duplicate of this county for a number of years, and a large sum is now due the county as delinquent taxes. The act recently passed wipes out all this indebtedness, amounting to between $30,000 to $40,000, and will enable the Indians to sell it, so that it can pass into the possession of people who will pay the taxes.

THE one hundredth anniversary of the death of John Wesley was observed this week by the 55 000 Methodist churches and membership of 5,390,000 in America. According to Wesley's own testimony, the origin of Methodism was in November, 1729, when four of the Oxford students met together for prayer and the study of the scriptures and were nicknamed "Methodys," from the precise and methodic lives they led. This little band soon grew into an organization, and a church was founded, which has spread all over the known world, and numbers thirteen million adherents. The Wesleyan Methodists have divided into over a hundred different bodies, but the original foundation principles remain practically unchanged.

THE net surplus in the national treasury at the close of business Thursday was less than $9,000,000. It has been reduced within the past week by heavy pension requisitions for the next quarter, more than $30,000,000 having been paid out on this account. The drain on the treasury from this source will now cease for three months, and the surplus is expected to gradually crawl up again to figures approximating $35,000,000.

A MEETING of the so called heirs of the Anneka Jans estate, who lay claim to property held by Trinity church, New York, as well as other valuable holdings, is being held at New Albany. Among them is Mrs. Ulerich Keyes, of New Albany, great grand-daughter of the old Hollander. About the only thing accomplished is to report progress. In connection therewith, Rev. Morgan Dix, rector of Trinity church, and the trustees, have addressed a communication to all whom it may concern, in effect that no suits are pending, and no negotiations are going on, looking to a settlement of the Anneka Jans business, and persons supposing themselves to be heirs, or otherwise interested in claims hostile to the title of the Trinity church corporation, are cautioned against paying out money to any person alleging the pendency of such suits or negotiations.

THERE is a lesson to be drawn from the recent arrest of the young fellows who were engaged in the Busching and Hartman burglaries in this city. The boys all belong to respectable families and have been going the downward road to ruin for some time past. Bad company and being permitted "to be out at nights," when they could do as they pleased, led them into the wicked ways that terminated in placing them where they are to-day—behind prison bars, with a prospect of serving sentences in the penitentiary. "Where is my wandering boy to-night" is a song that is often called "chestnutty" but there is a world of meaning and good sense in it. Parents ought to know where their boys are at night. There are so many things to draw them away from the paths of rectitude. The tempter meets them on every side. They are drawn into saloons. They see drinking and card playing, and, step by step, they are led into it, and when the evil habits are once formed it is almost impossible for the severest discipline to break them of it. They go from bad to worse and grow up drunkards and criminals. There is no harm in drinking an occasional glass of beer, or playing a game of cards, they say. Every day experience teaches the contrary. There is harm in these things, and hundreds of young men are being ruined in this city by them every night. They are vice educators. They are the evils that blasted the young lives of the boys who were arrested the other day, and they will do the same for others who suffer themselves to fall into bad habits. The police ought to arrest on sight any saloon-keeper who allows boys to remain in his place, and the commissioners ought to take away the license of every liquor dealer who permits boys to play cards at his tables. A little wholesome law-enforcing on this point would do a great deal of good. No set of men should be allowed to educate criminals to rob our residences and our stores. It is being done every day and night, and a halt ought to be called. Let parents lend their influence to check this contamination of our youth. They do not know what their boys are doing at night. They ought to know. It is a good thing to ask themselves occasionally "Where is my wandering boy to-night?" The question may be asked some time and the answer that comes will bring tears to the eyes and sorrow to the heart. Home is the place for the boy. It won't hurt him to be tied to his mother's apron string.

Burns or wounds should be attended to carefully, especially in cold weather. We would recommend Salvation Oil for such cases. All dealers sell it for only 25 cents a bottle.

Life is full of sorrows and disappointments, but the most sanguine hopes of all those who try Dr. Bull's Cough Syrup, are always realized. It never disappoints. At all dealers. Price 25 cents.

If you do not receive your SENTINEL regularly, please notify us immediately, either in person or by postal card, that we may remedy the fault.

In the event of the death of the said David Meade Creighton before my decease, then I give and bequeath the said sums of $10,000 above mentioned and $1,000 above mentioned, to the children of my said brother or to the surviving issue of said children, share and share alike, the issue to take the share that the deceased parent would have taken if living.

4. I give and bequeath to my nieces, Susan W. Ball, Sarah C. Ball, Julia E. Ball, Maggie T. Creighton, Bettie Meade Creighton, daughter of William Creighton, Janie B. 5. I give, devise and bequeath the residence of my estate, both real and personal, and wherever found and situate, to my three sons, Edward P. Williams, Rev. Meade C. Williams and Henry M. Williams, share and share alike.

Edward P. Williams, Rev. Meade C. Williams and Henry M. Williams are named as executors and are authorized to sell the real estate of decedent at private or public sale at such times and upon such terms as may seem to them to be to the best interest of the estate.

The executors named have qualified, giving separate bonds in the sum of $200,000 each, becoming sureties for each other.

THE LEGISLATURE.

Senator McHugh's joint resolution, accepting the provisions of the act of congress of August 10, 1890, appropriating certain sums of money to go to agricultural institutions, was ordered read by the speaker, and was adopted by the house without opposition.

Senator Jackson's bill, making it unlawful to haul heavy loads over gravel roads, at certain seasons of the year, except in cases specified, came up on third reading and was adopted.

The bill of Senator Thompson, of Pulaski, amendatory of sections 6 and 7 of the law concerning the obstruction of ditches and drains, was defeated.

The house passed the following bills: Mr. Gent's, providing against excessive charges for freight by railroad companies. Mr. Cullop's bill, limiting railroad fares for passengers to 2 cents a mile. Mr. Kyle's bill, amending the election law by providing that persons who have been or intend to be absent from their homes, shall register fifty-nine days before an election, to be legally qualified to vote thereat.

The senate passed the following bills: Extending the powers of the boards of children's guardians in townships of 75,000 inhabitants to counties wherein such townships are situated. Requiring the superintendents of the institutions for the deaf and dumb, blind and feebleminded to provide for the industrial education of the inmates of these by teachers and abolish the present contract system. In order to carry on this system the bill provides for an appropriation of $13,000 to be divided as follows: Deaf and dumb institution, $8,000; blind institution, $3,000; home for feeble-minded youth, $2,000.

Both houses have passed the apportionment bill over the governor's veto. The fee and salary bill comes up to-day on the conference committee reports.

All the caucus democratic nominees for the offices of the state institutions were elected in joint session.

The special house committee appointed to make an examination as to the present status of the pending amendments to the constitution, have made two reports. The majority finds that all the amendments, except No. 1, which fixes one year instead of six months as the time necessary for living in the state before having the right of citizenship, have been properly enrolled and recorded, and can now be voted upon by this general assembly. The minority report, made by Mr. Claypool, finds that the amendments have not been properly enrolled and recorded, and consequently are not pending.

BANK ROBBERY.

Burglars Partially Succeed in Tapping a Bank Safe.

FREEPORT, Pa., March 5.—Expert burglars made an attempt to rob the Freeport bank, and were partially successful, during last night. They drilled and forced the combination lock of the middle door, getting into the large steel safe inside. They next undertook to drill the safe door, but had to abandon it. The combination lock of the inner safe was broken and has not yet been opened to-day. The banker, Mr. Ludwick, thinks that the safe's contents are all right. If this be so, $10,000 or $15,600 of the bank's money is safe. In the steel vault were twenty private boxes, filled with valuable bonds, money and stamps. All of these were broken open and the contents taken. Banker Ludwick had over $40,000 in negotiable bonds taken; his son, Charles, $1,000 of the same; Mrs. Pillow lost over $2,000 in bonds; Miss Gibson, postmistress, over $200 in postage stamps; Dr. McClelland, several thousands in bonds. There was over $150,000 in money, bonds and other valuables stolen. The burglars gained entrance from a back window. Their tracks and also the print of their satchel are plainly imprinted in the snow.

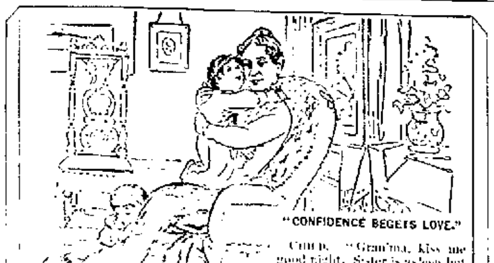

STARTLING REVELATIONS.

The Police Succeed in Locating and Arresting two Murderers.

MONACO, March 5.—Startling developments have arisen out of the case of the physician, Dr. Lindeman, of Manchester, who was found dead last December in a ravine at San Pomi. It was supposed at the time that the death had occurred from accident, or that it was a case of suicide. The police, however, were not entirely satisfied with this view of the case and as a result of their continuous work in unraveling the mystery, the important arrests were made. The prisoners are a man and a woman, and if the charge against them can be substantiated, the tragedy bids fair to take rank with the Eyraud-Gouffe atrocity in Paris. It is alleged that the woman lured the doctor into her lodgings and that while there he was overpowered by the man and woman, robbed and murdered. The body was then conveyed to the ravine where it was subsequently discovered. As yet the full details of the affair have not been made public, but there seems little doubt that the guilty parties are the ones in custody, and that the facts above outlined are supported by evidence in the hands of the authorities.

"CONFIDENCE BEGETS LOVE."

CHILD. "Gran'ma, kiss me good night. Sister is asleep, but we so love to hear you tell of all the ladies that call you Mother."

MRS. PINKHAM. "Yes, darling, when you are older perhaps you may do as I have done."

CHILD. "Everybody loves you grandma: I wish everybody would love me."

MRS. PINKHAM. "Everyone will love you, my child, if they can confide in you."

The above dialogue tells its own story; even the little child, without knowing why her grandmother is so universally loved, sees in her face a light of intellectual sympathy that satisfies her. That sympathy has extended itself all over the world, for wherever civilized women exist, Mrs. Pinkham is known and reverenced.

At present valuation will make men rich during the year 1891. The most conservative admit the truth of this assertion.

It is now known that the finest wheat land in the world and suitable for all small grains and fruits and in many instances cotton are

In North and West Texas

Texas farmers have an enormous home market as well as

Twelve Thousand Miles of Railroad and Ocean Outlet for their surplus crop. Here farmers are able to work out of doors every day in the year, and stock run on grass from January to January. Many farmers in Kansas and in the north-west are selling whatever equity they have in their farms, buying the cheap lands of Texas. And in many instances clearing the price of the land from their first years crops. The latest census shows that few farmers in Texas have their farms mortgaged. The Texas school fund is the largest of any commonwealth in the world, aggregating in cash and lands some sixty millions of dollars. State taxes are ten cents on the hundred dollars.

Frank Reinking has gone to Milwaukee to reside.

The Brotherhood of Machine Moulders hold a meeting this evening.

Engineers O. E. Bradley and John Mooney, of the Pittsburg, are sick.

Frank Stier, a machine moulder at the Bass works, is taking a vacation.

Harry Kilgore, traveling passenger agent of the Pittsburg company is in the city.

George Viberg, a Pittsburg machinist, who was sick yesterday, returned to work this morning.

The Fort Wayne Furniture company shipped a car load of folding beds to San Francisco yesterday.

The headquarters of the Order of Railway Conductors for Ohio will probably be located at Columbus.

The Nickel Plate road last evening received the first engine of the new ten wheel class from the Brooks locomotive works.

Charles Derome, a Pittsburg machinist, injured one of his eyes yesterday and is compelled to quit work for a day or two.

Yesterday was pay day at Rhinesmith & Simonson's. The firm distributes $3,000 each month among the employes.

John Rheinewald, of 106 John street, is the distinguished father of a brand new boy, who came last night to gladden his home.

Captain R. S. Harrison is suffering from a severe cold. He is at his post of duty, however, and anticipates no serious result.

J. G. Smith, who has a furniture factory at South Whitley, was in the city last night to see about getting some machinery repairs.

F. J. Woulfe, a former Fort Wayne citizen, is here visiting relatives. He now holds a lucrative position on the Lackawanna lines.

In nearly all cases the reports of earnings of railroads for the month of February, 1891, are an increase over the same period for 1890.

J. Cocheit, of the Pittsburg blacksmith shops, is attending the bedside of his sick father, out in the French settlements, east of the city.

Anthony Haverly has returned to work after a week's lay off, during which his furnace was being repaired. He is a blacksmith in the Pittsburg shops.

A. Kinnaird, machinist in the Pittsburg shops, had a finger mashed yesterday. The wound is very painful, but not thought to result in amputation.

Charles Weber, William Owens and Joseph Roggaber, cabinetmakers in the employ of the Fort Wayne Furniture company, are sick and unable to work.

Pittsburg engine No. 70, that left the shops yesterday, this morning took out the west bound local. Engines No. 110 and 126 were taken in the shops yesterday for repairs.

"Dude," Captain Harrison's dog, is suffering from the effects of a fight with two other dogs. "Dude" usually comes out best in a single handed combat, but two at once are more than he can master.

James V. Costigan, timekeeper at the Electric Light works, celebrated the fortieth anniversary of his birth yesterday by quietly and industriously following his usual avocation. He looks as young as a boy in his teens.

F. Schrantz, the engineer who was so badly scalded by the accident at the works of the Fort Wayne Furniture company last Monday, is getting better, and his physician says he will be able to resume work again in a few days.

The elevator to the cupola in the department of Frank Fink at the Bass works was broken yesterday and in consequence one third of the men were laid off until the breakage could be repaired, which will be a day or two.

Henry Brink, foreman of the sash and blind department of Rhinesmith & Simonson's, could not distinguish a blind from a sash to day, all on account of the arrival of a twelve-pound boy at his house. He carries the honors of papa in a dignified style.

The general passenger agents of most of the roads have given instructions that the conductors continue to take up mileage books presented by parties other than the original purchasers, the general passenger agents being very confident that the supreme court will reverse the decision of the Iowa court.

In his report President Roberts, of the Pennsylvania company, pays the following tribute to the late Vice President McCullough: "For a third of a century he had been prominently and closely identified with the roads embraced in your western system. While not directly connected with the lines east of Pittsburg, Mr. McCullough's unwearied labors on your behalf, and entire devotion to the interests confided to him, make it eminently fitting that the board should acknowledge the deep obligations under which the company rests towards a tried and faithful servant, who only ceased with his life to faithfully guard the trusts committed to his charge."

Yesterday was a busy day for Ed Challenger, clerk in the boiler shops of the Pennsylvania company. He received five car loads of boiler steel, which it was his duty to measure and check off. For ten years Mr. Challenger has kept a record of all the material consumed by the boiler shops.

Henry Burlager, of the American wheel works, is mad this morning. He had two fine game chickens which cost him considerable and of which he was very proud. This morning, when he went to feed them, he found the coop empty and evidence that his pets had been stolen. No clue to the thieves.

Last night a car toppled over on the Bass switch and caused the night yard gang on the Wabash considerable trouble. The car was loaded with pig iron, one half of which, all on one side, had been removed and when the switch engine attempted to move it, the heavy weight overbalanced and threw it on its sides.

Boston capitalists have so much confidence in the future of the Chicago, Burlington and Quincy road that they are furnishing money to build the extension to Great Falls, Mont., where connection is made with the Manitoba lines, now the Great Northern. The building of this link will be of great advantage to both railroad interests which will be thus connected.

The report in yesterday's SENTINEL that the men killed in the Hagerstown disaster were all members of the Pennsylvania Relief association was an error. One of them will get $1,200 and one $500 from this association. The other man, G. S. Needham, was not a member. He had over $6,000 insurance, however, and leaves his wife and family in good circumstances.

INTERCONTINENTAL RAILWAY.

At a meeting of the Intercontinental railway commission at Washington Wednesday, Wm. F. Shunk, of Pittsburg, was chosen "organizing engineer." Mr. Shunk was formerly connected with the Pennsylvania railroad and surveyed the line over the Allegheny mountains. Civil engineers will be selected to assist him and he is also promised the co-operation of local engineers in each of the countries through which the proposed road is to pass. There will be three surveying parties, including the military party already assigned to Central American states. The other two parties will be under the direction of Mr. Shunk and will work respectively north and south from a central point in Colombia. The principal difficulty anticipated in the survey is crossing the Andes in Colombia. Mr. Shunk's experience in mountain railroad engineering will be specially valuable in that connection. It is estimated that it will take eighteen months to complete the survey with the present force. A member of the commission said to-day that the lack of funds prevented the employment of more engineers or the work would be divided into smaller sections of country and naturally accomplished in much less time than is necessary under existing conditions.

It is the only medicine of which "100 doses one dollar" is true.

The following advertisement, published by a prominent western patent medicine house, would indicate that they regard disease as a punishment for sin: "Do you wish to know the quickest way to cure a severe cold? We will tell you: To cure a cold quickly, it must be treated before the cold has become settled in the system. This can always be done if you choose to, as nature in her kindness to man gives timely warning and plainly tells you in nature's way, that as a punishment for some indiscretion, you are to be afflicted with a cold unless you choose to ward it off by prompt action. The first symptoms of a cold, in most cases, is a dry, loud cough and sneezing. The cough is soon followed by a profuse, watery expectoration and the sneezing by a profuse watery discharge from the nose. In severe cases there is a thin white coating on the tongue. What to do? It is only necessary to take Chamberlain's Cough Remedy in double doses every hour. That will greatly lessen the severity of the cold and in most cases will effectually counteract it, and cure what would have been a severe cold within one or two days time. Try it and be convinced." 50 cent bottles for sale by druggists.

Triple Boiler Explosion.

TERRE HAUTE, Ind., March 5.—At 7 o'clock last night three boilers at the Shelburn coal mine in Sullivan county exploded. Five men were in the mine at the time of the explosion, but none were injured.

SPRING SUGGESTIONS.

Avoid draughts and sudden changes of temperature.

Do not discard your warm winter clothing too soon. It is better to suffer a little inconvenience than to take cold.

Remember that one is especially liable to contract a bad cold or chill at this season of the year.

A cough or cold contracted between the seasons is the most annoying kind, and may last through the summer.

If you feel a cough or cold coming on, take a drink of pure whiskey at once. It will keep the blood in circulation and is the best preventive against diseases of the season.

Remember that only pure whiskey should be taken. Duffy's Pure Malt Whiskey has the strongest recommendations from the leading scientists and medical men. It is the only standard medical whiskey. Take no other from your druggist or grocer.

Surplus in the Treasury.

WASHINGTON, March 5.—The net surplus in the treasury at the close of business yesterday was less than nine million dollars. It has been reduced within the past week by heavy pension requisitions for the next quarter, more than $30,000,000 having been paid out on this account. The drain on the treasury from this source will now cease for three months and the surplus is expected to gradually crawl up again to figures approximating $35,000,000.

Wreck and Ruin Threatened.

ALBUQUERQUE, N. M., March 5.—The Rio Grande is beginning to swell and there are fears of an overflow. In central and southern New Mexico the rain and snow fall has been very heavy, and the canyons are packed with nearly four feet of snow. If the present warm weather continues much longer the river will overflow its banks in the low lands and wreck and ruin will come to the numerous settlements along the river.

Indictments Against Gibson.

CHICAGO, March 5.—Geo. J. Gibson, the indicted whisky trust secretary, appeared before Judge Shepard this morning and gave bail in the four additional indictments recently returned against him in the Schufeldt distillery case. On the first indictment bail of $25,000 was furnished, and on the other three bonds of $500 each were given. Thomas Hutchinson and George Burrows, bondsmen in the former indictments, became sureties in these.

Palmer Sick.

DETROIT, Mich., March 5.—Ex-Senator Palmer, president of the world's fair, is confined to his bed at his Woodward avenue home, suffering from a severe cold, approaching in severity the case of grip with which he was afflicted last winter. His illness is declared not to be serious and his physician says he will be able to attend to business in the course of a few days.

Goes Out of Business.

NEW YORK, March 5.—The Commercial Mutual Insurance company, of this city, will go out of business to-day. The company has $500,000 in scrip, representing earnings, and four-fifths of the holders have assented to the winding up of the concern. The risks will be re-insured in other companies. For thirty-eight years, with the exception of a few years, the Commercial has paid six per cent. dividends.

CALIFORNIA EXCURSIONS.

Combining Comfort, Economy and Respectability.

The Santa Fe route, realizing the fact that there is a demand for a service to California and the Pacific Coast which will secure to the traveler even a greater degree of comfort than is given on the regular trains, has organized a series of special Santa Fe route excursions on regular dates between Chicago, Kansas City and all California points.

The most successful and satisfactory low rate excursions ever run to California have been over the Santa Fe route, and this company, with its own line from Chicago to California, smooth track and fine equipment will make these excursions more popular and successful than ever.

The excursions leave Chicago every Thursday at 7:50 p.m. from the Dearborn station of the Atchison, Topeka and Santa Fe railroad, and leave Kansas City every Friday at 10:45 a. m. and 11 a. m. They are personally conducted by salaried excursion agents of the Santa Fe route, who accompany the parties to destination, and give personal attention to the comfort of passengers, especially aged persons, ladies and children without escort.

Pullman Tourist Sleeping Cars are used in these excursions, and run through from Chicago and Kansas City without change to California. These cars are furnished with all necessary articles of comfort and convenience, as described elsewhere herein. A colored porter is assigned to each car, under the direction of the regular Pullman conductor. These arrangements give to the passenger every attention obtainable on first-class transportation.

Parties joining the excursions should write to H. A. Bonn, passenger agent, Rialto building, Chicago, who will give necessary information and assistance to passengers regarding tickets, baggage, location in sleeper, etc. Ticket office 212 Clark street, Chicago, corner of Adams street.

PAVING BRICK TESTED.

An Effort to Ascertain Which is the Best and Most Durable.

Yesterday at the Kunkle safety valve works a practical test of paving brick was made in the presence of the street committee and a number of East Wayne street property owners. At present the question of pavement is of deep interest to a large number of citizens who reside along the streets where paving improvement is contemplated or proposed, consequently the result of the test will be valuable for future reference as some brick pavements are sure to come of the present situation in the council and among the property owners remains unchanged.

A number of the bricks from different manufacturers had been selected, and their weight when dry was recorded. They were then placed in water and let remain twenty-four hours, when they were again weighed to ascertain the amount of water they had absorbed. The brick of the different makes were also placed in a tumbler, and for one hour they were subjected to the process of rumbling. This test is looked upon as an especially severe one, for if there is any breakage or wearing off it will here be shown. The following will show the results of the test made:

Porter, fire clay brick, weight dry, six pounds, thirteen and three-fourths ounces; wet, six pounds, fifteen and one half ounces; after rumbling, six pounds, six ounces.

London Mill, weight dry, five pounds, eight and one-half ounces; wet, five pounds, eleven and one-half ounces; after rumbling, five pounds, two and one-fourth ounces.

Canton, Ohio, weight dry, seven pounds, one-fourth ounces; wet, seven pounds, three-fourths ounces; after rumbling, six pounds, ten and one-half ounces.

Bucyrus, Ohio, weight dry, seven pounds, one-fourth ounce; wet, seven pounds, one-fourth ounce; after rumbling, six pounds, six and one-half ounces. A smaller sized brick from same place—weight dry, six pounds, fifteen and one-half ounces; wet, seven pounds; after rumbling, six pounds, seven and three-fourths ounces.

Beaver Falls, weight dry, seven pounds, one and one-half ounces; wet, seven pounds, five and one-quarter ounces; after rumbling, six pounds, twelve and one-fourth ounces.

Decatur, Ill., weight dry, four pounds, twelve and one-half ounces; wet, four pounds, thirteen and one-half ounces; after rumbling, four pounds six ounces.

Galesburg, Ill., weight dry, five pounds, ten and one-quarter ounces; wet, five pounds, ten and one-half ounces; after rumbling, four pounds, five and three-quarter ounces.

A common brick, made here and burned after the usual manner, was also subjected to the test and the comparison can be easily made, when it is seen that its weight dry was four pounds, two and three-fourth ounces; wet, four pounds, seven and a half ounces; after rumbling, three pounds, eleven and three-fourth ounces.
